Project Overview

Project Link: <http://www.sabrinawasserman.me>

Project Source Code: <https://github.com/s3wasser/s3wasser.github.io>

Original Release: February 20, 2017

Last Updated: May 19, 2017

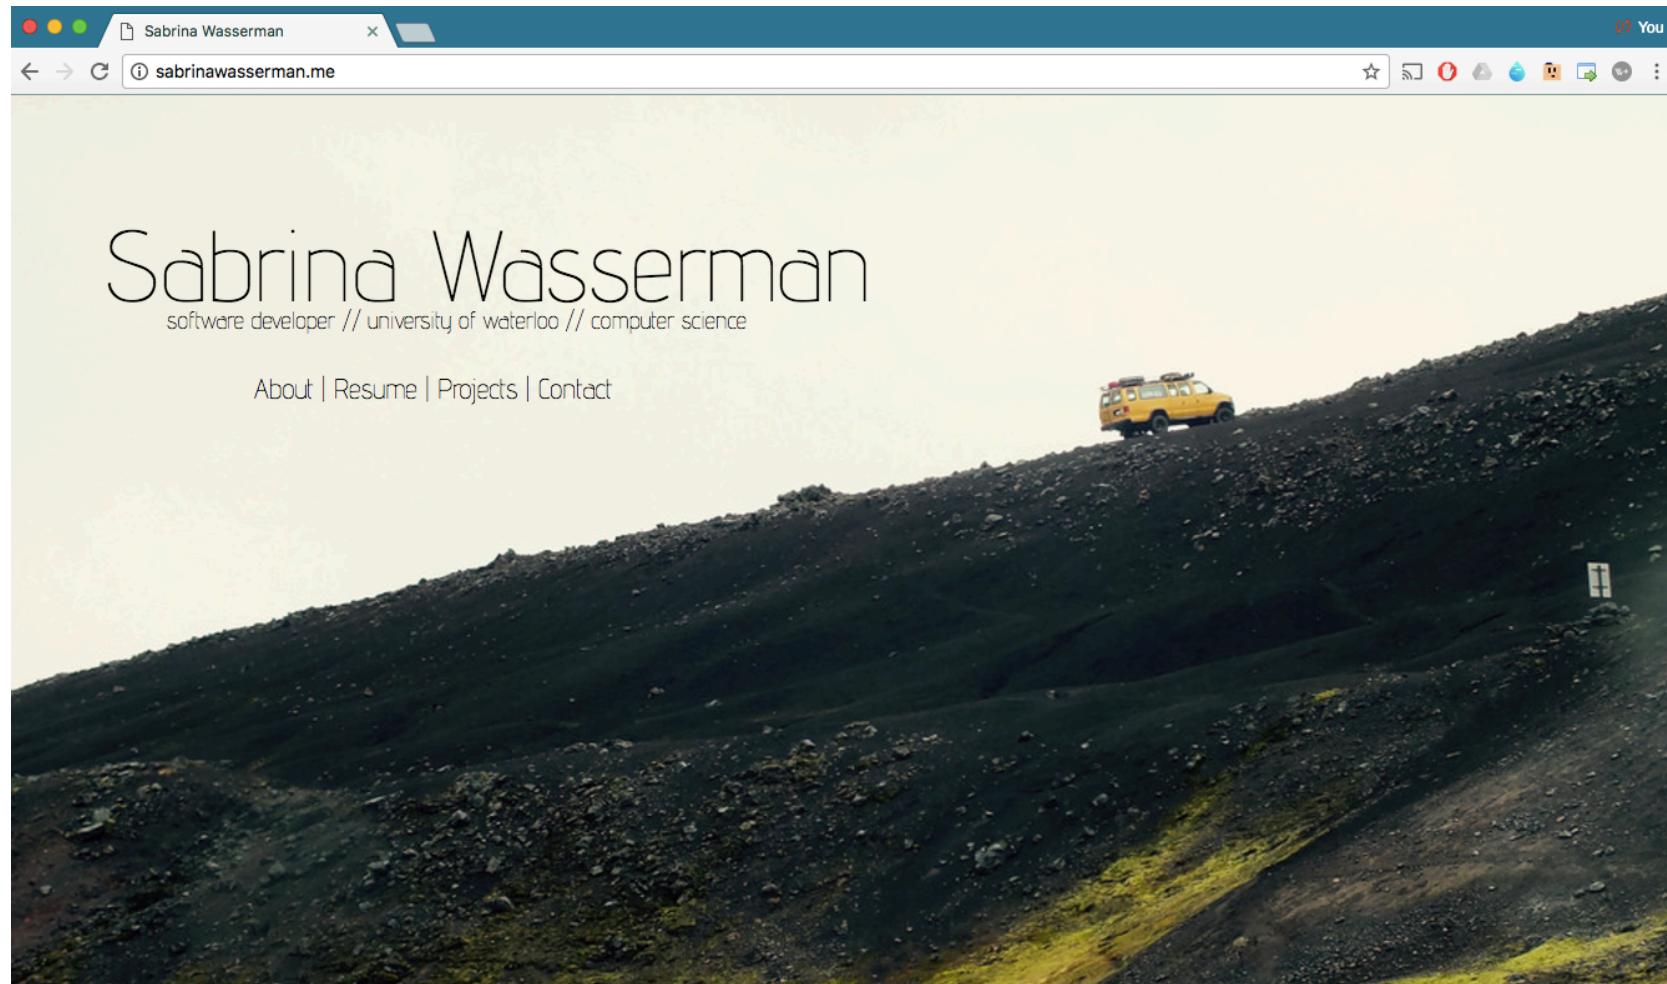

Language(s): HTML, CSS

Mobile Support: Yes

Project Description: A personal portfolio to display recent projects, resume, and contact information. All code was written by me, and all images displayed on the website are my own work.

Document Pages: 5

Home Page

The home page introduces users to the page, and provides relevant links to information about me. Linked pages lead to an about me page, resume PDF, projects, and contact information.

About Me Page

Hi, I'm Sabrina Wasserman.

I'm a student **software developer** at the University of Waterloo, pursuing a minor in English Language and Literature. Not the most traditional combination of degrees, but I've never been one to do what everyone else is doing anyways.

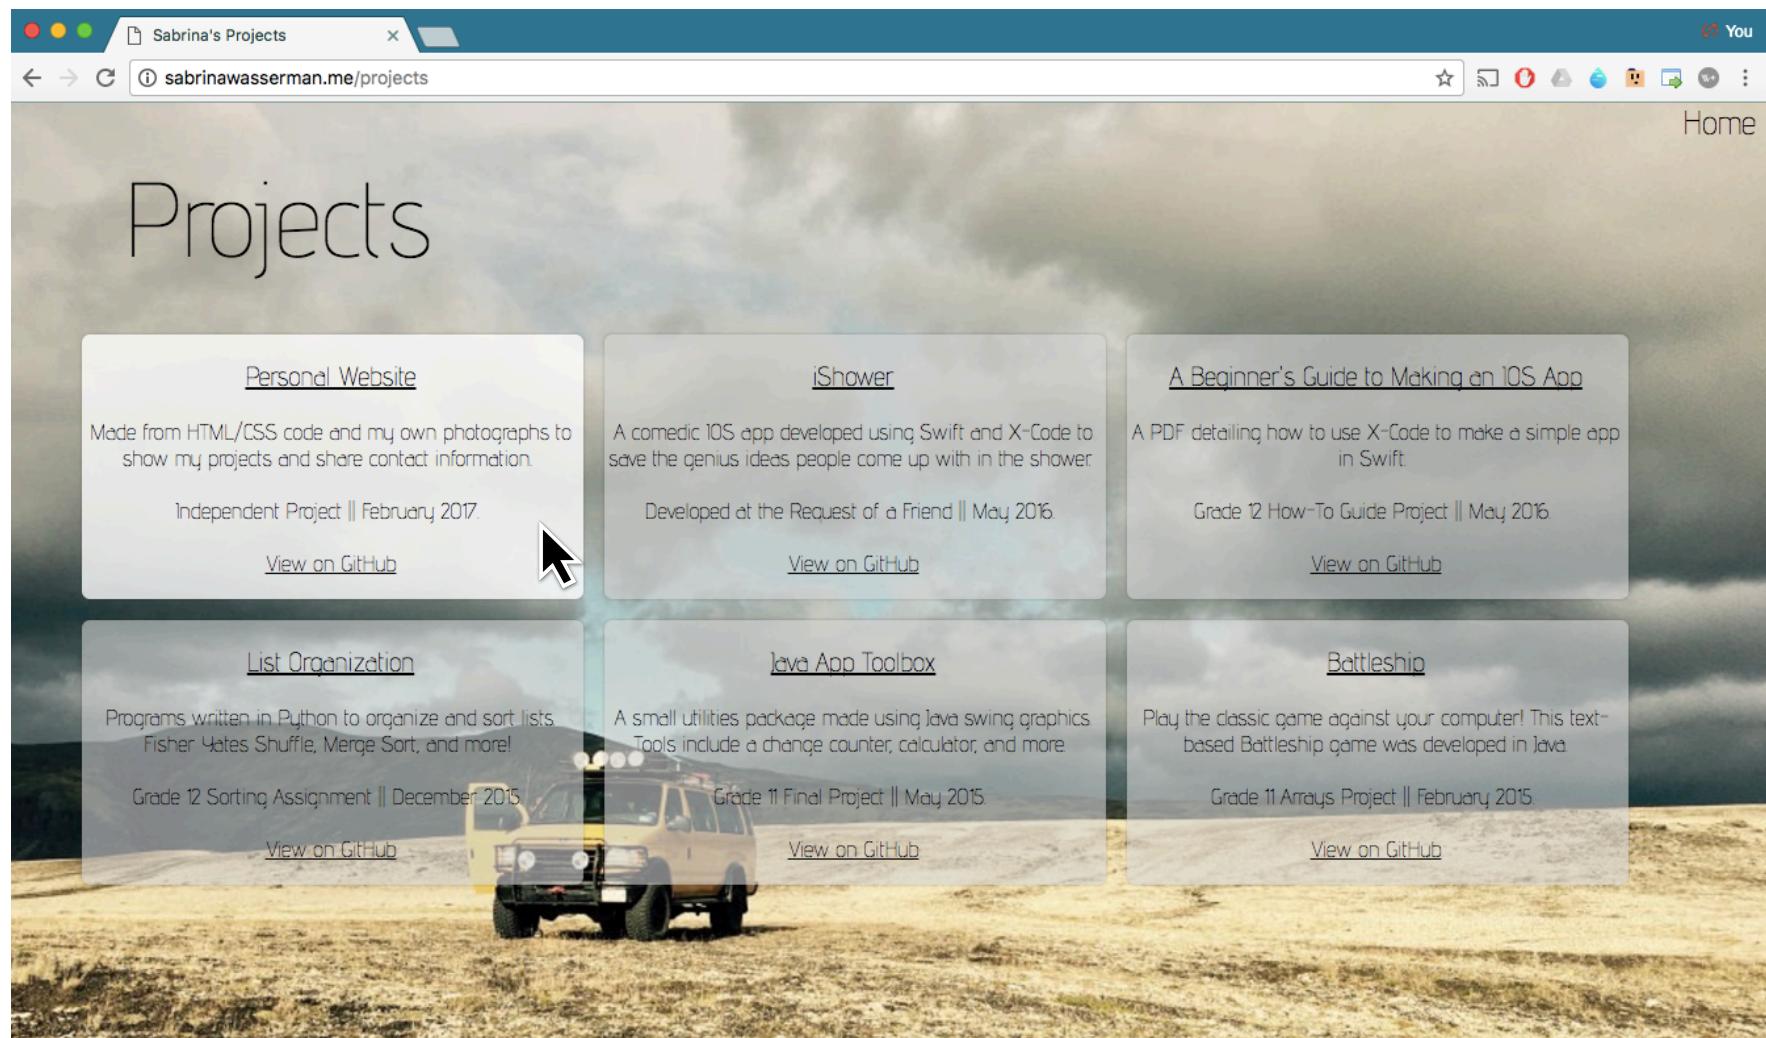

I strive to create **beautiful, creative, and unique** projects through self-learning.

Want to see more?
You can check out my projects [here](#), and my resume [here](#)

Want to contact me?
Check out my contact page [here](#)

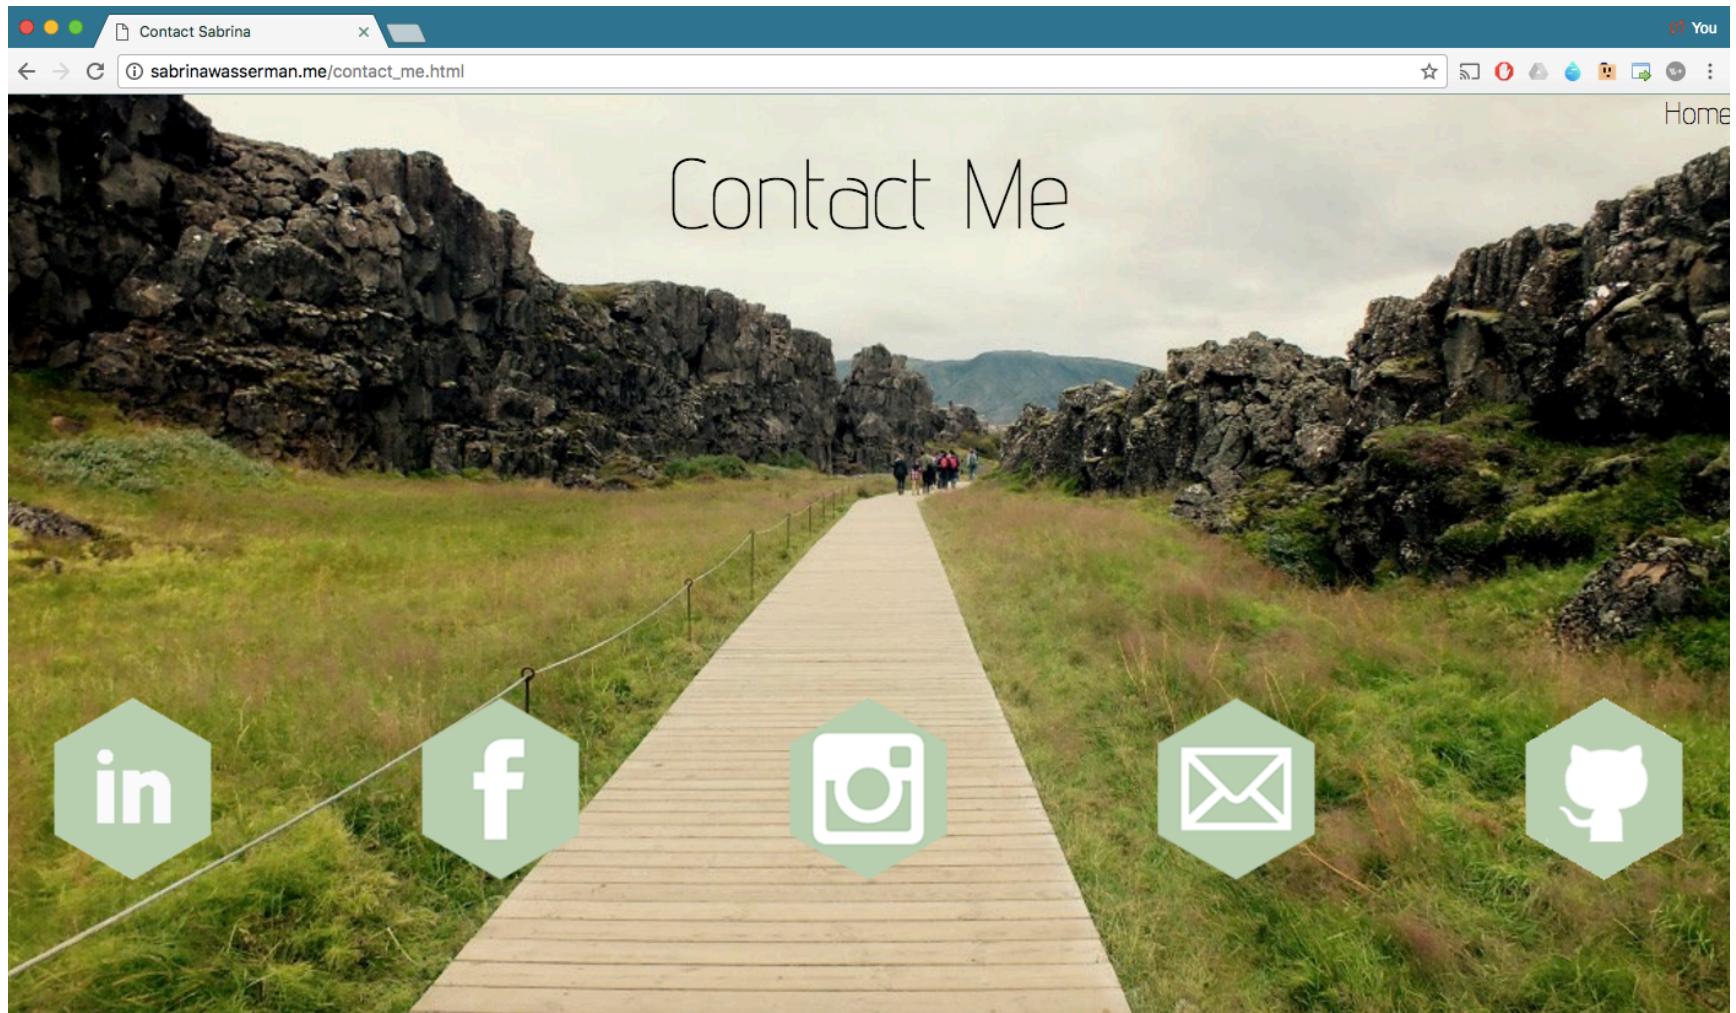

The “About Me” page, giving a brief description about myself and education, and providing more relevant links. This page was uploaded on May 17, 2017, completely replacing an older version that came with the initial February release.

Projects Page

Project page, containing descriptions of recent projects, and providing links to source code. Each project description lightens upon cursor hover, as pictured.

Contact Page

Contact page, containing links to my Facebook, Instagram, e-mail, Linked-In, and Github pages.
